Deliver Results.

“In the United States... for every 10 percent increase in racial and ethnic diversity on the senior executive team, earnings before interest and taxes (EBIT) rise 0.8 percent.¹”

— **McKinsey and Company**

McKinsey’s research also reveals that the most gender-diverse companies (those in the top quartile) are 15 percent more likely to outperform industry medians.² **When it comes to diversity and inclusion (D&I), doing the right thing pays off.**

UNCANNED D&I TRAINING & COACHING PROGRAMS

To break free of a cultural mold, you must first understand its contours. So Stanley Sherman, Propel Consulting Group’s Facilitator and Founder, and his staff first learn about your company, then tailor the ideal program to foster diversity and to ensure full participation.

Offerings include:

The Foundations

An introduction to D&I concepts and their effect on group dynamics (1 – 2.5 days).

Deep Custom Program

We dig deep to uncover your company’s D&I strengths and weaknesses. Then we customize a program to build on strong points and diminish limitations.

Individual or Group Coaching

Our coaching gives your leaders the awareness and problem-solving skills they need to become catalysts for cultural change, serving as role models for inclusion and collaboration.
